RE: West & Stem Architects, PLLC contract for Clemmons Branch Library Construction

At the November 28, 2016 Meeting of the Board of County Commissioners, a resolution was brought forward for approval to authorize a contract to provide professional architectural and engineering services under the construction manager a risk delivery method for the Clemmons Branch Library construction project. The contract was awarded to West & Stem Architects, PLLC in the amount of \$365,000. The resolution omitted approval for additional services and reimbursable expenses within the contract. Per the contract, these amounts are \$16,000 and \$4,000, respectively.

Staff is working to expedite the contract through the approval process and is therefore seeking approval of the additional services and reimbursable expenses within the contract so as to not delay the project.

Please don't hesitate to contact me with any questions, thank you.
