Dogpatch, NC 27105

Re: CY 2024 Emissions Inventory for Flapaloo Products (Premise 00222)

Dear Mr. Btfsplk:

This email serves as notification that you are required by Chapter 3 of the Forsyth County Air Quality Technical Code, Subchapter 3Q, Rule .0207 and Subchapter 3D, Rule .0202 to quantify your facility's calendar year 2025 air pollutant emissions and report those emissions data to the Forsyth County Office of Environmental Assistance and Protection (FCEAP). Emissions inventory data are utilized in air quality planning, toxic risk assessment, determination of permit fees, satisfaction of Federal emission reporting requirements and other related purposes. You are required to provide your best estimate of actual emissions of each regulated pollutant from all sources of emissions at your facility in addition to information about your processes and emission release points.

Your air emissions inventory must be reported via Microsoft Access database that will be sent to you in a separate email. If you have not received the database, please contact me. Some email systems reject Access database attachments, and we may need to utilize an alternative method to transfer the file.

Instructions and other information to help you prepare the emissions inventory are available on the FCEAP's website at <https://www.co.forsyth.nc.us/EAP/forms.aspx>.

Please email your completed emission inventory database back to me by **June 30, 2026**.

If you have questions or if you anticipate problems submitting your emissions inventory by June 30th, please don't hesitate to email me or give me a call at 336-703-2444.

Sincerely,

Steven K. Lyda
Program Manager, Logistics and Support Services Division
